

# TECHNICIAN TRAINING SEMINAR

## *Understanding and Diagnosing Hybrid Vehicles*

This 3.5 hour Hybrid seminar focuses on the proper techniques necessary to diagnose, repair and service Hybrid vehicles.

***With so many hybrids on the road it's time to get ahead of the curve!***

Seminar consists of:

- Safety training on Honda, Toyota, Ford, etc.
- DVOM usage (CAT III certified)
- Megohmmeter usage
- Hybrid diagnosis using scan tools
- Labscope measurements on Hybrids
- Testing high voltage batteries
- Regenerative braking system
- AC to DC inverters and DC to DC converters
- Electric assist steering
- Common service procedures; oil changes, cooling systems, tires, brakes etc.
- Real world testing (Handout Included)

***No longer will you have to turn Hybrid work away!***
